

Sirs:

Do not change the Indiana Do Not Call list. Relief from unwanted callers has made my family's life much more bearable and we do not want this to change. We have some considerable holdings in Wells Fargo, and I can tell you that for sure, should changes take place, we will find a way to move them immediately to some other non-participating institution. Certainly I will NOT become any bank's customer, nor buy their products should they call my home.
